Solar Inverter

A high performance, transformer-less, high switching frequency-based grid-tie Inverter with IP 65 ingress protection. The Inverter's digital control ensures maximum energy harvesting from the solar panel. This system can be controlled and monitored by mobile app and is equipped with GSM/GPRS for remote communication.

- Dust & Water Proof Design
- Advanced Digital Control
- User-Friendly Display

- Remote Connectivity
- Robust Protection Mechanism
- Mobile Monitoring

Mounting Structures

Crafted for resilience and engineered for peak efficiency, our Solar Module Mounting Structures deliver flawless performance through innovative design, exceptional durability, and maximum space utilization. From concept to completion, our solutions guarantee your solar system remains steadfast, meeting every environmental challenge head-on and maximizing energy production.

- Distinctive, Modern Design Appeal
- High Quality Durable Materials
- Leakage Proof Installation
- Easy Installation & Maintenance
- Superior Resistance to Corrosion
- Engineered for Extreme Wind Protection
